Chief, ^{25X1A9a} Intelligence Staff, RR
Attn. [REDACTED]

15 February 1957

THRU : Acting Chief, Industrial Division, RR
Chief, Electrical Equipment Branch, Industrial Division, RR
25X9A2

forwarded

Ref: ORR 10389

25X1X6

1. Preliminary interviews with Messrs [REDACTED] have produced a large volume of extremely valuable intelligence information of direct and immediate use to this Branch. It was noted that the intelligence potential of many [REDACTED] is not limited to [REDACTED] but frequently extends throughout much of the Soviet Bloc, including the USSR.

2. Therefore, it is concluded that this Branch must prepare collection ^{25X9A2} requirements in considerable detail, to be served upon a number of [REDACTED] as soon as possible after they have been resettled. For some cases it will be important to receive reports in answer to requirements at an early date, if feasible, since they are needed in support of ORR Projects 36.904, 36.597, and 36.1556 - all scheduled for completion between March and June 1957.

3. At this time, in support of this ^{25X9A2} proposed program for requirements, the attached list of eleven [REDACTED] has been prepared. Based upon the generally limited biographic information available to this Branch, including date of birth and type of employment, these [REDACTED] would appear to be of priority interest. It is understood that a few of the selected sources may turn out to be of little value, and that others, on whom we have no biographic data, may turn out to be much better. It is believed that some of the selected sources were processed through Camp Kilmer prior to interview.

Requirements:

25X9A2

For the attached list of proposed [REDACTED] now in the US, the following information is requested, to the extent feasible:

- 25X9A2
1. Address and employment of the source, after resettlement.
 2. Estimated date when requirements can be served on source, through [REDACTED] field office. ^{25X9A2}
 3. Are any reports, including [REDACTED] PIR's and NIP's being prepared on these sources? If so, what will be the approximate date of dissemination?
